

SERVICES FOR VETERANS AND THEIR FAMILIES

At AATPC we offer readjustment counseling for returning Veterans and their families.

Readjustment counseling includes a wide range of psycho social services offered to Veterans, their spouses and families in the effort to make a successful transition from military to civilian life. They include:

- Individual counseling for Veterans and their families
- Couple and family counseling for military related issues
- Bereavement counseling for families who experience an active duty death
- Military sexual trauma counseling
- Substance abuse counseling
- Employment and career counseling
- Treatment for post traumatic stress disorder (PTSD), anger management, relational aggression, self aggression, depression, anxiety, domestic violence and traumatic brain injury (TBI)

Because we value our veterans we offer these services through our Affordable Counseling Program. Families are charged on a sliding fee scale, based on their income and ability to pay.

VA offers information on these topics at: <http://www.mentalhealth.va.gov/>
